60/100W Mini YAG Jewelry Repair Laser Machine

Riselaser

60W

100W

Description

We have 2 choices for this YAG series, which is specially designed for jewelry repair. The 60W one is suitable for welding most jewelry like gold, silver and so on. If you have many customers, the 100W one is a better choice because it is more efficient.

Features

1. Small heat affected zone, thus no deformation;
2. Produce solid welds;
3. Can work continuously all day with low power consumption.
4. Energy, pulse width, and frequency can be adjusted within a wide range based on specific material.
5. Easy to operate.
6. The focusing cavity's service lifespan is 8 to 10 years, and the service lifespan of the Xenon lamp is over 8 million times. Maintenance-free within 10,000 hours.
7. Personalized design in compliance with ergonomics principles.

Technology Parameters

Input Voltage	AC220±10% 50HZ
Laser Frequency	1.0-10.0Hz Continuously Adjustable
Pulse Width	0.1~10.0ms Grading Adjustable
Spot Adjustment Range	±3mm

Riselaser

Laser Output Power	60/100W
Aiming and Positioning	CCD and Microscope
Environment Temperature	≤45℃
Operation Method	Touch Control
Laser Wavelength	1064nm
Size	L*W*H : 510*295*395 mm
